Deputy Head: Wendy Wayland

24th April 2020

Dear Year 3 and 4 Parents and Carers,

Home Learning in Year 3 and 4 from the 27th April 2020

We hope you are all staying healthy and well and managing to look after yourselves during this very difficult and uncertain time. We have loved hearing from some of your children and you through emails, seeing pictures of what the children are doing and reading the children's emails. Keep them coming!

All of the year 3 and 4 staff have been thinking of you and your children, and we have been working hard to put together some more formalised learning for the children via the **home learning page on the website**.

We have provided the following activities so that the children can have more structure to their learning and to support you as parents with their home learning. Please do whatever is possible as a family and encourage your children to do what they can. We know this is not always an easy task and all we can do at this time is try our best!

With this in mind, from Monday 27th April there will be:

- **Daily English and maths lessons** and activities, including links to reading online, handwriting and spellings. Try to complete **approximately** 1 hour of English and 1 hour of maths each day. Please adapt this time to your child's needs. The lessons have the days of the week on them and should be completed in that order.
- **Reading links** to books that the children can select depending on their book band. They should try to read for at least 20-30minutes each day. If this can be with another family member that would be great.
- **Daily Topic Lessons** covering History/Geography, RE, PSHE, PE, Art/DT and music. Try to complete **approximately** 1 hour of topic each day. These are generally linked to their Summer Term Topic and do not need to be done in any order, children can choose which order to do them in.

If your child is struggling with any activities, please contact your teacher via email and we can adapt tasks and make suggestions.

Please do make sure the children are also exercising daily, having fresh air each day and trying out new practical skills such as cooking etc. These are all really important life skills, and create time for families to spend together, which will also help with mental health and wellbeing for all.

Please do keep in touch with us as much as you can via email. Share any work, comments from the children or photos of what you have been doing on Year3@colindale.barnetmail.net or Year4@colindale.barnetmail.net

We are still here and want to give as much support to you with your children's learning and wellbeing as we can! We look forward to hearing from you soon.

Susie Averbroom, Assistant Headteacher, LKS2
